Dear [PROVIDER-NAME] [NAME] , [ADDRESS]. [POSTCODE]. DOB: [DATE] , Hospital Number: [MED-ID]

Number: [NHS-NO]

Diagnoses:

Ulcerative colitis diagnosed 1996

Subtotal colectomy 2001

Ileoanal pouch formation 2004

Current Treatment:

Loperamide 2 milligrams 15 times a day

Dihydrocodeine twice a day

VSL3 Four Sachets a day

B12 injections

Warfarin

I saw MISS [NAME] today at the IBD Clinic. Unfortunately things are really not particularly good at the moment. Her bowels open three or four to five times a day but importantly [NAME] is up every night. I have booked a flexible sigmoidoscopy to reassess her pouch and make a treatment plan on the basis of that. [NAME] is pleased with this plan and I have therefore given her a follow-up appointment for four to six months' time but obviously the management decisions will be made in the meantime.

With best wishes

Yours sincerely
