Dear [PROVIDER-NAME] [NAME] , [ADDRESS]. [POSTCODE]

DOB: [DATE] , Hospital Number: [MED-ID] , NHS Number: [NHS-NO]

Diagnoses:

Crohn's disease with jejunal resection 2015

Sarcoidosis

Fatigue

Recent onset of nausea

I reviewed Mr [NAME] at the IBD Clinic. He has been reasonably well in himself of late apart recently develop some slight nausea and occasionally a little bit of distention of the abdomen could be simply dyspepsia and I would be very grateful if you could give him a prescription for Omeprazole 40 milligrams once a day for a month to see how he response to [NAME]. [NAME] is a possibility that [NAME] could be a recurrence of his jejunal Crohn's disease and therefore I refer him for MRI small bowel to reassess [NAME]. I will write to him with the results and plan for if it is necessary to see him again earlier in the clinic earlier than the planned appointment of [NAME].

With best wishes

Yours sincerely
