Dear [PROVIDER-NAME] [NAME], [ADDRESS]. [POSTCODE]

DOB: [DATE], Hospital Number: [MED-ID], NHS Number: [NHS-NO]

I saw MR [NAME] today. He had an MRI scan of his now simple fistula which shows that he has a of intersphincteric sepsis on the left anterior side at 2 o'clock and the fistula passing through internal sphincter. Today on examination there was no induration, no problems here and it drained today. I have decided not to put the seton back in and to leave him as it is.

Best wishes

Yours sincerely

Miss [NAME], MS, M.Ed, FRCS

Consultant Colorectal Surgeon
