Dear [PROVIDER-NAME] [NAME],

Flat [ADDRESS], [ADDRESS]. [POSTCODE]

DOB: [DATE], Hospital Number: [MED-ID], NHS Number: [NHS-NO]

[NAME] is now living with his father full time.

He remains on sodium valproate 200 milligrams twice daily and he does not appear to have had absences. His father wondered whether he had had any absences in the first place and I said that [NAME] remained free of attacks over the next six months we will consider withdrawing his medication. [NAME] were no abnormal findings on examination today.

I have arranged to see [NAME] again in six months' time.

Yours sincerely

[PROVIDER-NAME]

Consultant Paediatric Neurologist
