Dear [PROVIDER-NAME] [NAME] , [ADDRESS]. [POSTCODE]

DOB: [DATE] , Hospital Number: [MED-ID] , NHS Number: [NHS-NO]

Problems:

Ulcerative colitis (diagnosed November 2010)

Flare-up December 2011, March 2011

Current Management:

Azathioprine 75 milligrams once daily (started March 2011), increased beginning of April 2011
TPMT carrier)

Off Prednisolone

Mesalazine 1.2 grams twice daily

Mesalazine 1 gram by suppository as required (for urgency)

Blood transfusions January 2011, March 2011

I was delighted to review Emily in clinic with her parents on the 25th of May.

She is really well at the moment. She has got no significant gut symptoms and in particular no
pain, loose stools or blood. Her energy levels are back to normal and she is in school full-time.
[NAME] is stable at 60.4 kg, and her periods have returned.

I am pleased with her progress. I have checked her bloods and will append the results. I have
made changes to her medication. I will review her in four months, sooner if there is a need. She has
an appointment in the meantime with [PROVIDER-NAME], Consultant Paediatrician in Basingstoke.

Yours sincerely

[PROVIDER-NAME]

Consultant Paediatric Gastroenterologist
