Dear [PROVIDER-NAME] [NAME] , [ADDRESS] [POSTCODE]

DOB: [DATE] , Hospital Number: [MED-ID] , NHS Number: [NHS-NO]

Problems:

Ulcerative colitis (distal) diagnosed May 2010, repeat endoscopy (May 2011)

Significant proctitis endoscopically (mild-to-moderate severity) with proximal caecal and dis
on histology consistent with ulcerative colitis

Current Management:

Prednisolone 25 milligrams once daily - restarted December 2011

Asacol 800 milligrams (am), 1600 milligrams (pm)

Mesalazine by suppository 1 gram each evening

Multivitamin and mineral supplement

Previous course of prednisolone completed May 2011

I reviewed Daniel in clinic with [PROVIDER-NAME] on 13th February.

She has had a recent flare-up of her colitis and is now struggling to wean her prednisolone (although is well at the moment).

I think she would probably be a good candidate for azathioprine. I will get her in for a gast
colonoscopy in Southampton to help inform this decision. I will review her when she is admitt

She has a follow-up appointment with [PROVIDER-NAME] in three months and myself alongside [PR
in Portsmouth in six months.

Yours sincerely

[PROVIDER-NAME]
